Computing is my passion. I love writing software to create something from nothing and solve problems. I am seeking an entry-level position in a Computer Science related field. Available to start Jan 2020.

Skills

- Software development, testing and debugging utilizing Agile methodology
- Able to quickly learn and use new programming languages and computing platforms—already proficient in Java, C, HTML, Python, MATLAB, R, SQL, GitHub and Microsoft Office applications
- Smart, quick learner able to follow instructions and work alone or in teams in fast-paced environments

- Industrious and capable team leader to assess project requirements, assign tasks, develop Sprint schedules, and successfully complete work on time—led class project design team with Honeywell to develop web-based notification system for government air traffic alerts
- Friendly and able to get along with others from diverse backgrounds and experiences

Experience

SPRING 2018 – PRESENT
Office Cleaner / Connect Chemicals USA, Alpharetta, GA
Work part-time while attending school. Clean offices on weekends. Vacuum carpets, mop floors, empty trash, dust and polish work surfaces and straighten furnishings.

SUMMER 2017
Sales Associate / OfficeMax, Suwanee, GA
Worked part-time while attending school. Performed front-end, sales floor and backroom operations.

SUMMER 2015 – FALL 2016
Backroom Team Member / Target, Suwanee, GA
Worked part-time 4am and 6am shifts while attending school. Received and unloaded truck shipments in warehouse. Organized and stocked shelves. Performed regular inventory audits. Fulfilled special guest requests and online orders.

Education

BS Computer Science (in-progress) / Georgia Institute of Technology
Information Internetworks & Intelligence threads, current GPA 3.20, expected graduation Dec 2019.

Also accepted to GT's Online MSCS program starting Spring 2020 for evening/weekend classes.
